PRODUCER MILK BASE NOTICE

Each producer for the Chattanooga marketing area began September 1, 1972, to establish a new milk base to be used in making payment to such producer during the month of March through July 1973. The 1973 daily average base will be computed by dividing each producer's total Grade A milk deliveries to a handler(s) during September 1, 1972 through January 31, 1973 by the number of days from the first day of delivery during such months to the last day of January, inclusive, but by not less than 120 days. Producers will be paid a uniform price for their total milk deliveries during August 1972 through February 1973. A producer base is assigned to the name (payroll account) as reported by the handler receiving the milk. Producers, particularly partnerships, are urged to see that their name(s) are correctly listed with the receiving plant and the Market Administrator.
